

ICT Project Template

1. Project Title

COFFEE WEBSITE

2. Team Members

- Emaan Binte Shams (25K-3082)
- Ifrah Waseem (25K-3013)
- Wajiha Nazir (25K-3021)

3. Project Description

This project contains a simple 3-page website using HTML, CSS, and JavaScript. The website will include a Home page, Menu page, and Order form. It will demonstrate basic layout design, navigation menus, and simple interactivity such as form validation.

4. Technologies Used

HTML

CSS

JavaScript

5. Website Pages Overview

MENU

AROMA COFFEE SERVICE

Espresso

Strong, bold, and perfect for a quick pick-me-up.

Cappuccino

Classic Italian coffee with equal parts espresso, milk, and foam.

Latte

Rich espresso blended with steamed milk and foam.

Americano

Bold espresso softened with hot water for a smooth, rich flavor.

Mocha

Decadent blend of espresso, steamed milk, and chocolate syrup topped with whipped cream.

Frappe

Chilled, creamy, and delightfully frothy — the perfect blend of coffee and cool indulgence.

8. Conclusion

This project helped me see how an idea can slowly take shape and turn into something real through consistent effort. We with our collective effort learn how to build a small website and I genuinely appreciate that our teacher trusted us with full creative freedom — it made the work more enjoyable and turned the whole experience into something meaningful and fun to learn from.
